DR. J. D. BUZZELLI'S CELEBRATED FAMILY MEDICINES

THESE Medicines are purely Vegetable, and extensively used in various parts of the United States, the British Provinces and the West Indies.

They are particularly intended for the removal of Chronic diseases, such as habitual or periodical Headache, Catarrh, Consumption of the Lungs, various affections of the stomach, liver, bowels, kidneys, urinary vesicles, glands, &c. Dropsy, Rheumatism, Gout, and some of the preparations, viz: the Bilious Bitters, Pills, Jaundice Mixture, and anti-acid preparations. When generally used, their effect is opening obstructions, removing all morbid and offensive matter from the stomach and bowels, which he has reason to think is always their effect in all cases within the control of medicines. They operate as preventives in various epidemic diseases, such as Intermittent, Inflammatory, Bilious, and common Typhus fevers, Inflammations of the Lungs, Bowels, Pleura, Cholera Morbus, Diarrhea, &c.; also as preventives to some contagious diseases, such as Yellow, Scarlet and Putrid fevers, and although there are some contagious diseases which they are not capable of preventing, such as small pox, measles, hooping cough, &c. yet he, from many years' experience, has become confident, that all those who contract any of those diseases, while under the influence of these medicines, taken in such doses as to keep up and maintain a healthy action in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are easily managed—whereas, on the contrary, doubtless in many cases, they would prove not only distressing, but uncontrollable and dangerous.

Vegetable Bilious Bitters.

Prepared exclusively at his Dispensary in Cape Elizabeth both near Portland, Me. These Bitters are particularly serviceable in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a loss of appetite.

Vegetable Bilious Pills.

These Pills are intended to remove all Bilious Obstructions, regulate the Secretions of the Stomach, Liver, Bowels and Kidneys, and to restore a healthy action in the digestive organs, by removing all unhealthy matter from the elementary canals.

Jaundice Mixture.

This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper tone, or have become torpid, attended with obstinate obstructions. It is also an efficacious remedy for bilious, and for which the directions accompanying the medicine are to be strictly observed.

Hemorrhoidal, or Pile Powder.

This medicine may be relied upon to give immediate relief; and their use persevered in, will effect a certain cure.

Compound Strengthening Plaster.

A local weakness, or a pain in the chest, stomach, side, or back, will, in most cases, be removed by the application of this plaster to the part affected.

Onion for the Cure of Cutaneous Eruptions.

A few sparing applications of this ointment, morning and evening, will be found a safe and efficacious remedy in all cutaneous eruptions. It is a remedy for eruptions of the face, with which children are so often affected, and even in cases of scald head, a loathsome affection of the head, in which state it is covered with a contagious scab, it is a safe application, effecting a cure. It will generally cure that troublesome and truly perplexing humor, called by many the Barber's or Jackson Itch; observing in all cases, to take the ANTI-IRRUPITIVE and COOLING POWDER, according to its accompanying directions.

Cough Mixture.

A remedy for all coughs proceeding from colds, asthma, chronic catarrhs, consumption, influenza, and inflammation of the lungs or pleura. It is also found very useful in ameliorating the violence of hooping cough.

For a more full and particular description of disease, and the medicine to be applied, I beg leave to refer you to my Circular, in pamphlet form, which may be found wherever the medicines are for sale, and to the remarks accompanying them.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Agnes Davis and Leonard March, Bangor, Messrs. Fiske & Norcross, Foster & Gilman, M. P. & M. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fitz, Edwigham; John Black and John M. Hale, Esqs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

LOZENGES! LOZENGES!

FALES'S Cough, Worm, Headache, and Diarrhea or Dysentery LOZENGES are safe, certain and agreeable remedies for the diseases for which they are recommended.

Numerous, speedy and surprising cures have been effected by their use, hence their popularity. Dwyot's Oracle of Health, (Philadelphia) says that Fales's Medicated Lozenges are considered by those who have used them, to be far superior to Sherman's or any other introduced into that market.

THE COUGH LOZENGES

Are beneficial in all cases of common colds, hooping cough, asthmatic affections, inflammations of the throat and lungs; they are also particularly beneficial for the croup, and a very good substitute for the celebrated HIVE SYRUP, Cough Candies, Quinney Cordials Pulmonary Balsams, &c.

THE WORM LOZENGES

Are a safe and sure remedy for Worms. Two or three is a dose for very small children, and five or six for larger ones.

THE DYSENTERY LOZENGES

Are a certain and agreeable remedy for Dysentery, Diarrhea and bowel complaints of children. Full directions as to diet and manner of taking them, accompany each box.

THE HEADACHE OR CAMPHOR

Lozenges are beneficial in cases of nervous headache, in febrile affections of a typhus character. They are useful in Rheumatism and peripneumony; also in eruptive diseases, to favor the eruption or bring it back when it has suddenly receded from the skin, as sometimes happens in measles and small pox.

For sale, Wholesale and Retail, by N. B. FOLSOM, Jr., Agent, and by the other Druggists in the city.

FALES'S CYPRIAN HAIR TONIC, FOR THE GROWTH, PRESERVATION AND RESTORATION OF THE HAIR.

No matter how bald a person may be, a growth of hair will be produced, and as naturally too, as the herbage grows on the plain, or the lily in the valley. This Tonic is warranted to cleanse the hair from Dandruff, and every other accumulating substance. Is your hair dry and falling off?—the tonic will moisten and fix it strongly in the head. Is your hair thin or your head bald?—the tonic is warranted to satisfy the largest desires in thickening the hair in the first case, and covering the Bald Head with natural hair in the second.

It is composed of those remedial agents that restore the skin at once to a sound and healthy condition: when thus restored, you will soon discover on the head a short, soft, and beautiful growth of young hair gradually increasing in length, till it becomes as your other hair was before you began to lose it.

*The question is often asked, from what is the word Cyprian derived? Ans.—from the word Cyprus, the name of a beautiful island in the Mediterranean Sea. The inhabitants of that far famed island, are as well known for their fine glossy hair, as for their bright sparkling eyes. It is known, however, that any other people, except those of Cyprus, have never used this Tonic until its introduction into the United States.

For sale, wholesale and retail, by N. B. FOLSOM, Jr., and at retail by the other Druggist in the city.

DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz.—where the nipple is inverted; where there is excoriation in its invertible form; or, even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is, that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

They may be found at A. P. GUILD'S, may 20 Druggist, Exchange-st.

Public meeting relative to the Removal of U. S. Troops from Forts Kent and Fairfield.

A public notice was issued in this city on Saturday morning last by a hand bill, bearing the names of several of our citizens, calling a public meeting to consider the subject of the removal of U. S. Troops from Forts Kent and Fairfield and to take such orders as might be deemed expedient to have them restored. Agreedly to the call a large number of our citizens met at the Court House and the meeting was called to order by Hon. Gorham Parks, and Governor Kent was chosen chairman, and E. G. Rawson, Esq. Secretary.

Gov. Kent on taking the chair addressed the meeting on the importance of having troops upon the Fish river; that there were large number of settlers there who spoke a different language from our own—without magistrates, without a knowledge of our laws and without any definite idea of protection except in the presence of an armed force. These people are in a transition state and passing into ideas and habits suited to make them a part of our government, but until this is accomplished it is a duty we owe to them, to ourselves and the peace of the State, to afford them protection such as they can have confidence in and such as shall be effectual. He stated the anxiety of Lord Ashburton to have the line of boundary include these settlers within the British possessions, and the assurances that were given that they should be protected and their interests regarded, and their welfare promoted as much under our government as under the Provincial. But they were now left at the mercy of plunderers, and without a knowledge of law or the means of its execution.

The United States troops while stationed there had in fact performed many of the important functions of civil as well as military government, and had been highly advantageous to the security and comfort of the settlers and to the peace of the State. He believed there was a misapprehension regarding this matter at Washington, and he could not but think if suitable representations were made, that the troops would be restored to posts where they were so much needed and could exercise so happy an influence.

Col. Parks stated that for sixty miles upon the lines the settlers now needed protection, which could only be furnished by troops; that the whole region there, on the British side had been permitted to Lumberers, and that the rough, uncouth, uneducated and lawless lumbermen of the Restigouche and Miramichi were thronging into the Country, and as they were a sort of semi-barbarians there could be no security to the harmless and peaceable settler if the military power was absent. He was acquainted with that Country and people, and he believed them, at present, incapable of exercising civil government. He was confident that the facts in the case were not known at Washington, or the troops would not have been withdrawn, and upon suitable representation being made to the President or the Secretary of War, he was confident an order would issue, for their restoration. He therefore moved that a committee of seven be appointed to draft a memorial to be offered for acceptance and signatures on Monday evening.

Levi Bradley, Esq. the Land Agent of this State, on being called upon, stated that he heartily concurred in the views that had been expressed, and in the importance and absolute necessity of the troops being restored. He also read an official letter from Capt. Wm. P. Parrott, one of the Surveyors for Maine and Massachusetts, who has been located upon the territory, stating the helpless and exposed situation of the settlers and their anxiety since the withdrawal of the troops.

Hon. Wm. D. Williamson and Hon. Elisha H. Allen severally addressed the meeting upon the subject, and all concurred in the necessity of the troops being stationed at Fish river and on the St. John, above.

The following named persons were appointed to draft a memorial: Gorham Parks, Elisha H. Allen, Wm. D. Williamson, James Crosby, S. P. Strickland, John Wilkins and Wm. P. Parrott.

The meeting adjourned to meet on Monday (this) evening.

Daring Outrage.

We learn that on Saturday night about eleven o'clock, just as Mr. Benj. Webster had closed his shop a man approached him in such a manner as to lead him to suspect that he intended to strike him and as he was about to defend himself the man hurled a stone which struck him upon the head, inflicting a severe wound. They then came in contact and after some struggling Webster succeeded in laying him upon the sidewalk and made his escape to idly help and seek him. The fellow made off. We learn further that this man was about the shop at the time Webster was meeting his money for the night and that he is well known by sight, at least, although we have not learned his name. There are said to be some other persons and the public should be on their guard.

Pirates in the Java Sea—Insurrection at Manila—Confederation.

The Boston Evening Transcript gives extracts from a letter received from Manila by a Boston man, stating that during the passage from Batavia the vessel in which the writer was chased by two pirate sloops from which they escaped. There was an insurrection at Manila caused by a priest. After some successes the party were taken prisoners and 62 of them shot and 48 strangled to death.

About the first of April there was a great conflagration at Manila which consumed about two thousand buildings, and destroyed many lives.

Dreadful Railroad Accident.

A dreadful accident occurred to the train of cars for York, Pa., from Baltimore, on Wednesday morning, which if it cause no several deaths, has resulted in horribly mauling a number of persons.

About two hundred and fifty of the "Defenders of Baltimore" had started to celebrate the day at York. When the cars containing them and others had arrived within seven and a half miles of York, the axle of the second car unfortunately broke, which brought that and the third car together with such tremendous force as to cause the platforms of each, on which a number of persons were imprudently standing, to lap over, and as a consequence crushing every one in the way, and throwing the two cars from the track.

We learn from Col. Richardson, of Gilman & Co's Express that two men have been arrested on suspicion of being concerned in obstructing the Rail Road, by which the life of a worthy man was lost, and of hundreds of others placed in imminent peril.

We learn that the Steamer Huntress on Saturday on her trip from Portland to the Kennebec broke her shaft, off Mark Island, when she put back to Portland and her passengers were taken to the Kennebec by the Steamer Splendid.

Daring Robbery at Philadelphia.

The Philadelphia Gazette of Thursday says that Mr A. C. McKend, of Mobile, was robbed of \$1000, the money having been taken from his room at the Franklin House.

Fire in Boston.

On Thursday last a destructive fire broke out in Harrison Avenue, Boston, and about twenty buildings, among them several carpenters' shops were consumed and considerable property destroyed.

The Eastern Arous states that Herriek (loco) is elected to Congress in the York district.

A new contrivance—an experiment.

The Thomaston Recorder states that a small steamboat is being built at Gardiner, and is nearly completed, to be propelled by two small cast iron wheels, to go entirely under water. The wheels are about 4½ feet in diameter, and are to act upon the water similar to an oar when sculling. She is sixty feet long, and has a high pressure engine, of about fifteen horse power. She will cost about three thousand dollars, and is built merely to try the experiment of propelling boats in that method. We noticed some of the castings for these wheels on our late visit to Gardiner, but we were not then apprised of the fact, that they were for the purpose of testing a new contrivance, but supposed them to be something after the plan of Lieut. Hunter. We hope the experiment will succeed, but we have no clear statement by which to judge of the probability.

A great outcry was made during the sessions of the last Congress, on account of President making, the whole of which, however, evidently grew out of the fact that the Whig members of Congress would not consent to enter upon a crusade to make a President out of an unworthy accident.

But recent letters from Washington, and much of public speculation is now directed to what seems to be an every where admitted fact, that the President, and all his Cabinet are intensely engaged in President making. There is, more and more necessity for a close application of the one term principle.

Keep it before the people of Maine, that the Frontier Journal in behalf of the Loco party is out against the duty on Salt. If this duty is taken off, at the same time off goes the Bounty to Fishermen! Off goes the duty on New Brunswick lumber, wood and potatoes! Off go all duties and we are then left in direct competition with foreign pauper labor and bloated capital!

To the Editor of the Whig and Courier.

I cut the following from the Eastern Enquirer of Sept. 2d, will you please give it an insertion in your paper with a single comment as advice to the author of the paragraph:

"We notice that some of the newspapers state that one John H. W. Hawkins is soon to visit this city. It is said that the tailors make many men great, but it must be admitted that the newspapers alone were competent to make a great man of that individual."

Lethim sign the pledge and keep it, and that will make a man of him without the assistance of a tailor, it was the pledge that did it for me.

JOHN H. W. HAWKINS.

The Northampton Courier announces the death of General Ebenezer Marton, of Amherst. He was a distinguished officer in the revolutionary war—and was subsequently a State Senator, Sheriff of Hampshire, Adjutant General of the State, and Maj. General.

The Boston Times doubts the story of a man being killed at Fort Kent, as the troops were about leaving there. We assure the Times that this story was killed is stated.

We mentioned to say the other day that the fruit of the high bush cranberries was about to be marketed in the meadow cranberry—

The general muster in this regiment for inspection and review was highly satisfactory, showing a rapid improvement in military discipline, taste and spirit. There were present, eight independent companies, and most of them did their duty in a very acceptable, and some of them in a superior manner.

Capt. Jones's Company, the Bangor Rifle corps, attracted much attention from the large number in the ranks, the elegance of their uniforms, the propriety of all the appointments of the company, and especially for the accurate drill, and sober, quiet earnestness and ease of all their movements.

Capt. Moulton's Company—the City Greys—made a brilliant appearance and attracted much attention. The uniform is beautiful, and so fresh and bright as to throw other uniforms quite into the shade. The marchings of this company were very good in all the movements we witnessed.

The Brewer Light Infantry, and the new Light Infantry Company from Milford, each with elegant uniforms, appeared exceedingly well.

The Hermon Light Infantry Company have a substantial and beautiful uniform, with the exception of their caps—these they should give to the women and get something that looks more manly. This company is one of great promise. There is good timber in it for a splendid military corps.

There were several other light companies that appeared well and should probably be noticed, but as there was nothing that particularly called our attention to them we must let them pass.

The militia generally were better appointed and better drilled and in a better state than we have seen them for a long time. We think this must be owing to their having officers in the Division, Brigade, and Regiment, who know their duty and delight in its performance, and who impart to their subordinates no small portion of their own spirit.

There was one great improvement, introduced, we think, last year, and that was, placing the members of light companies on guard duty and having that part of military duty performed, as it should be, according to the usages in the army. Each sentinel then feels a pride in performing the duty creditably to himself and his corps. He shows self-respect and inspires respect for him and his office generally, among the spectators. This does away with all wrangling upon the lines and is one of the best methods of keeping order we have ever noticed.

A military friend has handed us a notice of the Review, which we here subjoin:

To the Editor of the Whig & Courier.

Witnessing the Review of the troops in this city last Thursday, I was struck with the unusual beautiful appearance of the regiment.

The Bangor regiment is undoubtedly the best in the whole State, both in point of numbers and quality of troops. It turned out on this occasion over one thousand fighting men.

There is attached to it some seven or eight corps of light troops, some of which can hardly be surpassed by any of the kind in the United States. The Bangor Rifles, Capt. Jones, both for military appearance and discipline, in its neatness and close manoeuvres, its marchings in closer order and better alignment than any other can march, and in all its parts it is unsurpassable. The City Greys, Capt. Moulton, is a most magnificent company, beautiful beyond description, but among the spectators, where I stood, the Rifles carried off the palm in fine style. The Milford Light Infantry, Capt. Abbott, is a new and beautiful corps, making its appearance in an elegant military uniform for the first time. This Company will very soon range along side and may out sail our very best corps. The Brewer Light Infantry, Capt. Jones, has improved greatly since last year, both in point of members and discipline, and is a most superb company. There was one local Infantry Company, belonging to Bangor, commanded by Capt. Jellison, to whom too much praise cannot be bestowed. I do not wish to detract one iota of praise due the other companies of Bangor, they are all of them entitled to great credit for their very soldier-like appearance, but none came up, in any respect, with this. I understand they have had regular weekly drills during the fall, which has enabled them to perform the evolutions almost as perfect as do our light corps.

This Corps was very large and the whole in a uniform of White pantaloons, Blue coats, white belts and neat caps. This too, was the only Infantry Company on the field with its Sergeants in uniform. Next year, I hope to see its musicians in red coats. What an efficient and honorable Militia we should have in this State, were all the officers Capt. Jellison's. Capt. Nickerson, of Orrington, brought on to the field a very large Company, and all in white pants. This Company too, shew by its appearance and systematic evolutions, (what I had before learned) that Capt. Nickerson is a very excellent officer. The officers cannot but be sensible of the good effect of a thorough and correct drill, which it is to be hoped, will be continued another year with increased interest.

VIDETTE.

Iron Works in Piscataquis.

Our readers have been informed of the enterprise of manufacturing iron from the natural ore in Piscataquis county.

Major P. P. Furber has furnished the Piscataquis Farmer with an account of the works alluded to, in which he says:—

"The location of an extensive and rich bed of iron has long been known near the outlet of Thomas' Pond on the west branch of Pleasant River, about 15 miles north of Brownville village. The bed of ore is said to be inexhaustible, and is within one or two hundred rods of the outlet or near the outlet of the pond. Edward Smith, Esq. of Bangor, commenced the erection of a dam across the river at that place, and also the erection of suitable buildings

for the manufacture of iron early last spring—he has completed the dam, has erected a building 30 feet wide by 90 feet long; other works are in such a progressive state, that Mr. Smith assures us that within a very short time we shall have the pleasure of seeing iron transported from Pleasant River to Bangor.

There is not a place perhaps in New England, where iron can be made at less expense, there is a large tract of land, many thousand acres, in the immediate vicinity, on which the original growth was destroyed forty or fifty years ago; it is now covered with a 'second growth' of a suitable size and quality for coals, and as a great portion of the land is entirely worthless for the purposes of cultivation, it is obvious that the cost of coals, will be no more than the expense of burning. The difference in the cost of coals at Pleasant River and Massachusetts where iron has been made for many years, will more than pay the transportation of iron from the former place to Bangor.

If people can make it profitable to smelt iron in Massachusetts, New Hampshire and Vermont, I see no reason why it will not be profitable here, where ore, coals, lime and every article wanted to carry on the business can be obtained on the spot, and at the lowest rate.

The Charter Oak did not arrive until Sabbath morning, owing to the storm on Friday night.

We are indebted to Jerome's Express, for Boston and New York papers received by the boat.

Pride is seldom delicate, it will please itself with very mean advantages; and envy feels not its own happiness but when it is compared with the misery of others.

LOCKS OF A NEW PATTERN.
THE attention of House Carpenters and all interested in building or finishing dwellings is invited to a variety of mortice and other locks of a new and excellent pattern, manufactured by Wilson's Lever Lock Company. The simplicity, durability and cheapness of these locks, have commanded general attention wherever introduced. Samples may be seen at the Barker building on Water street, opposite the Kenduskeag House, where all, particularly master builders are invited to call and examine them.
Wilson's Blind Fastenings, also for sale at the above place, where orders for any of the above are solicited.

August 21, 1843. PILLSBURY & SANDFORD.

FARM FOR SALE.
THE subscriber offers for sale, that tract of land known as the Todd farm in the town of Chester. It is pleasantly situated on the river about four miles above Lincoln village and consists of about 85 acres mostly excellent tillage land, including eight or ten acres of intervals. There is a small house upon it somewhat out of repair and a moderate sized barn. To an experienced and practical Farmer, who would improve it himself, this Farm would be highly valuable, as it will yield with suitable cultivation a large crop of Hay and Grain, which in that situation must always command a market at good prices. It will be sold on reasonable terms on application to me at Bangor.
